Work Experience

Citizens for Juvenile Justice | Boston, MA

Data Analysis Intern

Sept 2024 – May 2025

- Performed exploratory data analysis on foster care permanency plans, with a focus on APPLA placements and permanency outcome
- Analyzed demographic and placement patterns to identify disparities in permanency pathways
- Integrated federal and state child welfare policy research with quantitative findings to support evidence based advocacy on permanency planning

Empower Success Corps | Boston, MA

Marketing and Communications Intern

Sept 2024 – May 2025

- Increased ESC's digital visibility by updating website content, creating social media strategies, and email marketing efforts allows ESC to reach a broader audience
- Conducted market research and contributing to projects that build community among clients and consultants/fellows
- Analyzed historical client data—including sector, background, and engagement duration to produce an annual report quantifying trends and outcomes, helping ESC identify the types of clients to prioritize for future engagement

Economic Progress Institute | Providence, RI

Fiscal Policy Intern

June 2025 – August 2025

- Researched the fiscal impact of Rhode Island policies, such as Payday lending, to identify strategies for enhancing economic equity for low to moderate income Rhode Islanders
- Performed data analysis in Excel to produce a report on the criminalization of poverty, comparing national, regional and Rhode Island-specific data national levels to promote sustainable economic progress in Rhode Island
- Advocated for policy reforms at the Rhode Island State House, presenting findings and recommendations for various Rhode Island districts to legislators

United For a Fair Economy | Boston, MA

Communications Intern

Sept 2023 – May 2024

- Boosted UFE's visibility to supporters, donors, partner organizations, and members of the public through writing blogs and newsletters
- Tracked economic and racial justice content from other organizations and selecting key points to amplify through UFE's channels
